

# Bethesda Country Club

## Bethesda CC testimonial

“As construction managers, Artisan Partners did a tremendous job with the renovation of the kitchen facilities at Bethesda Country Club. These extensive renovations included modifying the kitchen area to increase food preparation capacity; replacing kitchen equipment; installing a new exhaust system and an Ansul fire suppression system capable of handling grease fires.

We chose Artisan because of their experience in performing work at local country clubs, such as Lakewood CC in Rockville --- and they did not disappoint.”
