## Artisan Partners To Provide Construction Management Services For Major Renovation And Construction Project At Arlington, VA. Church

12/1/15

**Artisan Partners Construction Services** announced that it has been retained to provide construction management services for a major **\$2 million** renovation and construction project at **Rock Spring Congregational United Church of Christ (RSCC)**. The church is located at 5010 Little Falls Road, Arlington.

Artisan will work with **cox graae + spack architects** to complete the final design and planning and throughout the construction process in renovating and redeveloping the church's buildings and facilities. A general contractor will be selected based on Artisan's recommendations.

The church campus consists of four buildings, totaling 33,000 square feet, that will be renovated: sanctuary, education facility, social hall/multi-purpose building, and a church/community meeting hall. The sanctuary is the oldest building on the church campus, built in 1940.

According to Adam Prill, Artisan Partners principal: "We are pleased to be assisting the Rock Spring congregation with this renovation and construction project to upgrade and modernize its buildings and facilities."

Artisan's work at RSCC is a continuation of its active involvement with providing construction management services for religious facilities. It has performed major construction projects on behalf of River Road Unitarian Universalist Congregation in Bethesda, Md.; Temple Sinai in Washington, D.C.; and Young Israel Shomrai Emunah and Chabad of Silver Spring, both in Silver Spring, Md.

### ***About Artisan Partners:***

Founded in 2008, Artisan Partners ([artisanpartners.us](http://artisanpartners.us)) provides construction management and owner representation services to a number of varied clients; including business owners, corporations, country clubs, developers, hotels, schools, religious institutions, and trade associations. From start to finish, Artisan Partners oversees projects through all phases of development, design, and construction.
